Forestry and Natural Resources – Joseph Dahlen

Journalism and Mass Communication – Dodie Cantrell-Bickley

Law – Randy Beck

Pharmacy – Michelle McElhannon

Public and International Affairs – Jeffrey Berejikian

Public Health – Brittani Harmon

Social Work – Harold Briggs

Veterinary Medicine – Susan Sanchez

Graduate School – Wendy Ruona

Ex-Officio – Provost S. Jack Hu

Undergraduate Student Representative – Jeremiah de Sesto

Graduate Student Representative – Gerena Walker

Dear Colleagues:

The attached proposal from the College of Family and Consumer Sciences for the following changes will be an agenda item for the March 26, 2021, Full University Curriculum Committee meeting:

Change the name of the Department of Foods and Nutrition to the Department of Nutritional Sciences

Change the prefix FDNS, Foods and Nutrition, to NUTR, Nutrition

Sincerely,

John Maerz, Chair

University Curriculum Committee

February 10, 2021

Office of Curriculum Systems
University of Georgia
Athens, GA 30602

The Department of Foods and Nutrition has voted to change the name of their department to the Department of Nutritional Sciences (19=Department of Nutritional Sciences, 2=Department of Nutrition). They also voted to change their departmental prefix from FDNS to NUTR (20=yes, 1=no).

The FACS Curriculum Committee voted unanimously to move both of these changes forward on February 10, 2021. The attached letter from the Department Head and Proposal for Academic Unit Name Change detail the justifications for these changes.

We are in support of these changes. Please let us know if there is any further information needed.

Sincerely,

Linda Kirk Fox, Dean
College of Family and Consumer Sciences

Nickols Professor & Associate Dean for Academic Programs
College of Family and Consumer Sciences

February 5, 2021

Dear Curriculum Systems and Academic Affairs Administrators:

I am requesting on behalf of the faculty in the Department of Foods and Nutrition that the name of the department be changed to the Department of Nutritional Sciences. I am also requesting that the prefix be changed from FDNS to NUTR. The requested name change is necessary to unite the diverse areas of scholarship within the department and better communicate faculty expertise areas to those outside of academia as well as current and prospective students, other academic institutions, potential collaborators, and funding agencies. The Department of Foods and Nutrition consists of faculty members conducting a wide range of nutrition-related research, from cell and molecular studies, to clinical studies of metabolism, to community-based efforts to improve nutrition and population health. The proposed new name (Department of Nutritional Sciences) achieves these goals and is consistent with the names of similar departments at peer institutions as well as the administrative structure of the University of Georgia and the University System of Georgia. Furthermore, the new name more clearly differentiates the department from the Department of Food Science & Technology, a unit within the College of Agricultural and Environmental Sciences.

During this past year, faculty have carefully considered this decision and have engaged in meaningful discussions. Faculty response to Qualtrics survey confirmed a consensus that the name should be changed to either the Department of Nutritional Sciences or the Department of Nutrition. A special faculty meeting was held on Friday February 5th and a formal vote was taken for the name change as well as a separate vote for a new prefix.

Faculty votes for new name preference

- Department of Nutritional Sciences n=19
- Department of Nutrition n=2

Faculty votes to change prefix from FDNS to NUTR

- Yes n=20
- No n=1

As the department head, I strongly support this request to approve changing our departmental name and prefix.

Thank you,

Lynn B. Bailey, PhD
Flatt Professor of Foods and Nutrition
Department Head

Attachment: Proposal for Academic Unit Name Change and Prefix Change

PROPOSAL FOR ACADEMIC UNIT NAME CHANGE

Date: February 5, 2021

Department/Division: Foods and Nutrition

School/College/Unit: College of Family and Consumer Sciences

Proposed Effective Date: Fall 2021

NAME CHANGE:

Current Name: Department of Foods and Nutrition

Proposed Name: Department of Nutritional Sciences

JUSTIFICATION:

The Department of Foods and Nutrition consists of faculty members conducting a wide range of nutrition-related research, from cell and molecular studies, to clinical studies of metabolism, to community-based efforts to improve nutrition and population health. A name change is necessary to unite the diverse areas of scholarship within the department and better communicate faculty expertise areas to those outside of academia as well as current and prospective students, other academic institutions, potential collaborators, and funding agencies, which would aid in the pursuit of extramural funding. The new name achieves these goals and is consistent with the names of similar departments at peer institutions and also the administrative structure of the University of Georgia and the University System of Georgia. Furthermore, the new name more clearly differentiates the department from the Department of Food Science and Technology, a unit within the College of Agricultural and Environmental Sciences.

PREFIX CHANGE:

Current Prefix and Name: FDNS, Foods and Nutrition

Proposed Prefix and Name: NUTR, Nutritional Sciences

JUSTIFICATION:

The Department of Foods and Nutrition (FDNS) consists of faculty members conducting a wide range of nutrition-related research, from cell and molecular studies, to clinical studies of metabolism, to community-based efforts to improve nutrition and population health. Changes to the name and prefix are necessary to unite the diverse areas of scholarship within the department and better communicate faculty expertise areas to those outside of academia as well as current and prospective students, other academic institutions, potential collaborators, and funding agencies. The new name and prefix achieve these goals and are consistent with the names and prefixes of similar departments at peer institutions and also the administrative structure of the University of Georgia and the University System of Georgia. Furthermore, the new name and prefix more clearly differentiate the department from the Department of Food Science and Technology, a unit within the College of Agricultural and Environmental Sciences.

Documentation of Approval and Notification

Proposal: Name Change for the Department of Foods and Nutrition to the Department of Nutritional Sciences

Prefix Change from FDNS, Foods and Nutrition, to NUTR, Nutritional Sciences

College: College of Family and Consumer Sciences

Department: Foods and Nutrition

Proposed Effective Term: Fall 2021

Department:

- Foods and Nutrition Department Head, Dr. Lynn Bailey, 02/05/2021

School/College:

- College of Family and Consumer Sciences Dean, Dr. Linda Fox, 02/05/21
- College of Family and Consumer Sciences Associate Dean, Dr. Sheri Worthy, 02/05/21

Proposal Notification:

- College of Agricultural and Environmental Sciences Dean, Dr. Nick Place, 2/23/21
