UNIVERSITY CURRICULUM COMMITTEE – 2019-2020

John Maerz, Chair

Agricultural and Environmental Sciences – Nicholas Fuhrman

Arts and Sciences – Jonathan Evans (Arts)

Trenton Schirmer (Sciences)

Business – Richard Gooner

Ecology – Amanda Rugenski

Education – Morgan Faison

Engineering – E.W. Tollner

Environment and Design – Brad Davis

Family and Consumer Sciences – Patricia Hunt-Hurst

Forestry and Natural Resources – Joseph Dahlen

Journalism and Mass Communication – James Hamilton

Law – Randy Beck

Pharmacy – Michelle McElhannon

Public and International Affairs – Jeffrey Berejikian

Public Health – Brittani Harmon

Social Work – Harold Briggs

Veterinary Medicine – Susan Sanchez

Graduate School – Amy Medlock

Ex-Officio – Provost S. Jack Hu

Undergraduate Student Representative – Melissa Hevener

Graduate Student Representative – Jordan Henley

Dear Colleagues:

The attached proposals from the College of Agricultural and Environmental Sciences to terminate the following areas of emphasis will be an agenda item for the April 17, 2020, Full University Curriculum Committee meeting:

Area of Emphasis in Entomology under the major in Biological Science (B.S.A.)

Area of Emphasis in Plant Science under the major in Biological Science (B.S.A.)

Sincerely,

John Maerz, Chair

University Curriculum Committee

cc: Provost S. Jack Hu
Dr. Rahul Shrivastav

PROPOSAL FOR DEACTIVATION OR TERMINATION OF AN ACADEMIC PROGRAM

Date: April 3, 2020

School/College: College of Agricultural and Environmental Sciences

Department/Division: Poultry Science

Program: Area of Emphasis in Entomology under Biological Science (B.S.A.)

Which campuses offer this program? Athens, Griffin, and Tifton

Deactivation or Termination? Termination

Proposed Effective Date: Fall 2020

Last date students will be admitted to this program: No students are enrolled in this area of emphasis

Last date students will graduate from this program: No students are enrolled in this area of emphasis

Program Abstract:

The Area of Emphasis in Entomology was created several years ago when the major in Entomology (B.S.E.S.) was considered for termination due to low enrollment. The entomology major was never eliminated, so this area of emphasis was never used.

1. State the reasons for terminating the program, and provide copies of any relevant documents.

This program has not had any student enrollment, nor had anyone complete it, in the past 5 years.

2. What will be done to minimize the impact of the termination of the program upon the personal and professional lives of the faculty and staff involved? Include specific information on: a) how faculty and staff will be notified of the termination, and b) how faculty and staff will be reallocated.

Elimination will not have any impact, as no students are enrolled in the program.

3. What will be done to insure that termination of the program does not weaken other programs (graduate, undergraduate, or professional) for which the department may be responsible?

Elimination will not have any impact, as no students are enrolled in the program.

4. State the plans for allowing students currently enrolled in the program to complete degree requirements, including specific information on: a) how students will be notified of the program deactivation, and b) how students will be advised on completing the program.

No students are enrolled in the program.

5. What plans, if any, are there for subsequent reactivation of the program?

The department has no plans for reactivation of this program.

PROPOSAL FOR DEACTIVATION OR TERMINATION OF AN ACADEMIC PROGRAM

Date: April 3, 2020

School/College: College of Agricultural and Environmental Sciences

Department/Division: Poultry Science

Program: Area of Emphasis in Plant Science under Biological Science (B.S.A.)

Which campuses offer this program? Athens, Griffin, and Tifton

Deactivation or Termination? Termination

Proposed Effective Date: Fall 2020

Last date students will be admitted to this program: No students are enrolled in this area of emphasis

Last date students will graduate from this program: No students are enrolled in this area of emphasis

Program Abstract:

The Area of Emphasis in Plant Science was created several years ago when the major in Plant Pathology (B.S.A.) was terminated due to low enrollment. This area of emphasis has not had any student enrollment and no one has ever graduated with this area of emphasis.

1. State the reasons for terminating the program, and provide copies of any relevant documents.

This program has not had any student enrollment, nor had anyone complete it, in the past 5 years.

2. What will be done to minimize the impact of the termination of the program upon the personal and professional lives of the faculty and staff involved? Include specific information on: a) how faculty and staff will be notified of the termination, and b) how faculty and staff will be reallocated.

Elimination will not have any impact, as no students are enrolled in the program.
