SUBJECT: Request for HFIM prefix

The Department of Agricultural and Applied Economics would like to request a new prefix - HFIM - to use in support of our proposed Hospitality and Food Industry Management major. Once the major is approved, the curriculum will require the development of several new courses.

While our department has some similar courses currently in existence, we do not feel that the current prefixes, AAEC (Agricultural and Applied Economics) and ENVM (Environmental Economics and Management) are appropriate for the new major. The HFIM prefix will accurately reflect the course offerings and allow students' transcripts to better acknowledge their coursework for prospective employers.

Please feel free to contact me if you have any questions or concerns.
